HAGERMAN NATIONAL WILDLIFE REFUGE

Wildlife Viewing Guide

Hagerman National Wildlife Refuge is a haven for local plants as well as animals. The refuge provides places for all of these plants to grow without the treat of cattle grazing or mowing. Many beautiful species of wildflowers grow in large stretches of open prairie land, while others live tangled in brush on the forests edges. Try to identify all the species listed below. Just remember that all of the plants within Hagerman are protected. Please do not to collect or disturb any during your visit.

Have fun and enjoy viewing the wildflowers of Hagerman!
