Wildlife Viewing Guide

SNOW GOOSE

WINTER BIRDS

Hagerman National Wildlife Refuge is home to more than 338 recorded species of birds. Some are permanent residents while others come from as far away as Canada seeking warmer weather during the winter months.

As you enjoy the refuge today look for the commonly seen birds pictured in this leaflet. Take notice of their color and shape, and see how many you can identify. Remember.... cars often make the best 'blinds' to help you see more wildlife.

Have fun and enjoy viewing the birds of Hagerman!
